

Information - New floors in the basement stairwells

One of the measures in this year's Budget is to **lay a new floor** in the **basement stairwells** (=where the elevator stops in the basement) and in the **passage between the stairwell and the garage.**

To facilitate as much as possible, the work will be divided into three rounds, see below.

Ymers gata 21A and 23C and Sivs gränd 9A

Tuesday 7 April 07.00 – Friday 10 April 24.00.

Sivs gränd 9B and Ymers gata 23A.

Tuesday 14 April 07.00 – Friday 17 April 24.00.

Ymers gata 19A and 23B.

Tuesday 21 April 07.00 – Friday 24 April 24.00.

This will unfortunately cause disruption for all of us. It will be **impossible to get into the garage through the affected stairwell** in the basement. While the work is in progress, you can **reach the garage through a stairwell that is "vacant"** (next to your normal stairwell). Note that you can **always reach the garage through the garage door.**

Important: In most cases it will also be **impossible to get into the basement storage rooms** from the affected stairwell while the flooring is being laid.

This project will cause inconvenience to everyone, but the only practical and economical way to lay new flooring in these spaces is to **close off the respective basement stairwell completely.**
